PROFESSIONAL SUMMARY

AI & Full Stack Developer and Automation Specialist with expertise in building production-grade applications and intelligent workflows. Experienced in integrating LLMs, Voice AI, and WhatsApp APIs into real-world systems. Deep hands-on knowledge of n8n for end-to-end business automation, working with international clients across India, UK, and UAE. Founder of GoAutomate. Solved 275+ problems on LeetCode and completed two 108-day LinkedIn learning challenges. Passionate about exploring AI tools daily and understanding where to apply which model or platform for the best outcome.

EXPERIENCE

FIT – First Information Technology | Muscat, Oman (Remote)

AI & Full Stack Developer Nov 2025 – June 2026

- Engineered production-grade full-stack applications integrating Voice AI, LLM APIs, and WhatsApp for multi-channel data collection and AI-driven analysis
- Implemented RBAC, OAuth-based CRM integrations, and real-time analytics dashboards generating NPS, EVI, CSAT, and CES metrics across client deployments

Business Automation Engagements | Remote

n8n Automation Specialist / Automation Manager Jun 2025 – May 2026

Cervoa (Jan–May 2026) · **MyAibo** (Oct–Dec 2025) · **TenderSeal** (Jul–Dec 2025, UK) · **Advait** (Jun–Jul 2025)

- Architected an end-to-end outreach automation pipeline using Apollo, Clay, and Instantly that took campaigns from lead collection through execution
- Developed internal dashboards and an AI-driven auto-reply agent using n8n that reads and responds to emails based on context
- Designed and deployed automation workflows across multiple client environments, integrating APIs and databases to reduce manual workload by up to 90%
- Managed workflow optimization, troubleshooting, and documentation ensuring reliable system performance at scale

STARTUPS

XimVerse | Bengaluru, India

Co-Founder & CAIO

- Building the orchestration layer for cross-border trade, incubated at PIEDS (Pilani Innovation & Entrepreneurship Development Society, BITS Pilani); currently in pilot testing phase in HSR Layout, Bengaluru | ximverse.com

GoAutomate | Bengaluru, India

Founder & CEO

- Founded and scaled an automation agency helping businesses eliminate manual work through intelligent n8n workflows, AI agents, and custom API integrations
- Designed and delivered end-to-end automation systems for clients, enabling teams to focus on growth rather than repetitive operations | goautomate.studio

TECHNICAL SKILLS

Languages: C, C++, Java, Python, JavaScript

Automation: n8n, Zapier, Webhook Design, API Integration, Workflow Orchestration, SerpAPI

AI Integrations: OpenRouter API, VAPI (Voice AI), WhatsApp Business API, RAG Systems, LLM Integration

AI Tools: Claude Code, ChatGPT, Gemini, Perplexity, Cursor AI, GitHub Copilot, Clay, Instantly

Web / Full Stack: React, Node.js, Express.js, TypeScript, Django, HTML5, CSS3, TailwindCSS, GSAP

Databases: PostgreSQL, MySQL, MongoDB, Neon DB, Supabase, Drizzle ORM, Excel, Power BI

DevOps: Git, GitHub, REST APIs, JWT Auth, OAuth 2.0, Brevo SMTP

PROJECTS

InsightPulse

Multi-Channel Survey & Analytics Platform

- Full-stack survey platform distributing surveys via Voice AI, WhatsApp, and Web with LLM-driven analysis generating NPS, EVI, CSAT, and CES scores in real time
- Developed RBAC, CRM OAuth integration, employee retention analysis module, and an executive analytics dashboard
- github.com/BendiKarthikeya/FITSOman/tree/main/insightpulse

HRMS - HR Management System

End-to-End Hiring & Onboarding Platform

- Engineered a complete hiring pipeline covering requisition, multi-step approval routing, public careers page job postings, AI-driven CV screening, and interview scheduling with calendar invites, online-meeting links, multi-round tracking, and panel evaluation scoring
- Developed the offer letter lifecycle with e-signature capture and inline PDF preview, post-offer onboarding tracking for medical, visa, and clearance status, automated transactional emails at every pipeline stage, and a reports dashboard with KPIs (open vacancies, pipeline funnel, avg hire cycle) and CSV exports
- github.com/BendiKarthikeya/FITSOman/tree/main/hcms

n8n Automation Projects

Selected Builds

- **Multi-Platform Lead Intelligence System** - Monitors Reddit, Quora, X, and Threads for relevant leads and mentions using SerpAPI and platform APIs, with batching, rate-limit handling, and logging to Google Sheets; webhook-triggered across 5+ platforms
- **Social Media Management Automation** - Single workflow that auto-publishes content to Instagram, LinkedIn, and YouTube from one trigger with conditional routing per platform
- **Business Platform Automation** - Automated end-to-end workflows with multi-database integration, reducing workload by 90%
- **AI Voice Agent Automation** - Intelligent voice-based automation system using LLMs for hands-free workflow execution

EDUCATION

Indian Institute of Technology, Guwahati CGPA: 8.68/10.0

B.Sc Honours in Computer Science and Artificial Intelligence 2023 - Present

ACHIEVEMENTS

- JEE Mains 2023: Scored 94.63 percentile - secured admission to IIT Guwahati
- Olympiad: Qualified for NSEJS (National Standard Examination in Junior Science) - top 300 nationwide
- Solved 275+ problems on LeetCode; completed two 108-day LinkedIn learning challenges
